PROFILE SUMMARY

A highly skilled Web Developer specializing in front-end development, with extensive experience in all stages of dynamic web project development. Proficient in multiple programming languages, including Python PHP, (OOP), JavaScript, HTML, CSS, and MySQL, with strong expertise in web development frameworks such as Laravel and Django. Additionally, I have experience in cross-platform app development using Flutter and integrating artificial intelligence into web systems.

Beyond development, I possess a solid background in project management, network management, and technical support, excelling in troubleshooting technical issues, diagnosing and repairing faults, and resolving network-related challenges. My expertise extends to web and graphic design, utilizing Adobe Illustrator and Photoshop to craft visually compelling designs with a strong focus on brand identity redesign. Furthermore, I am adept at integrating client CMS programs and data feeds into websites to enhance functionality and user experience.

EDUCATION

Master of Artificial Intelligence <i>NEU (Yakın Doğu Üniversitesi)</i>	2025
Bachelor of Science Software Engineering <i>NEU (Yakın Doğu Üniversitesi)</i>	2022

PROFESSIONAL EXPERIENCE
